

New Era Creative Space (NECS) is a non-profit, community-based educational center located in the vibrant downtown core of Peekskill, NY. With the mission of enriching the lives of children and youth, NECS helps each individual to develop lifelong interests and skills through engagement in creative activities. NECS is running a campaign to **sponsor a disadvantaged child for one week at our Summer Camp 2018** (see attached schedule). Many of the children and youth in our district do not have the means to engage in enriching programs during the Summer, and as a result, often fall behind - research demonstrates how kids in impoverished neighborhoods regress during the long Summer break.

Individuals, schools, businesses, faith-based organizations and other entities supply essential financial resources towards our mission and goal to provide our Summer programming to those who are underserved within the community. Your donations and support are greatly appreciated!
